

KEYSTONE ENTERPRISE PARK

[Return Home](#)

Welcome to Keystone Enterprise Park

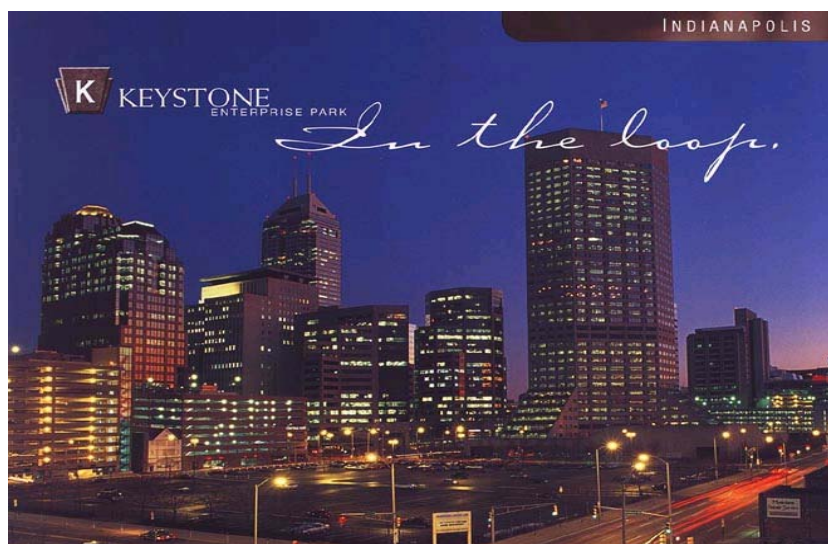

I'm tremendously excited about the Keystone Enterprise Park development project. An excellent location for business, the park boasts quick access to both interstate and rail, allowing for efficient transportation of goods and services to global markets, and downtown Indianapolis and the Indianapolis International Airport are only minutes away. In addition, longtime Indianapolis neighborhoods surround the 62-acre Keystone Enterprise Park, providing tenants with a qualified workforce.

Keystone Enterprise Park is in the Indianapolis Enterprise Zone, which means companies that locate there may qualify for additional benefits, including tax credits and other incentives.

Indianapolis is an attractive city for business to grow and succeed, home to both a dynamic economy and a vibrant social climate. With our strong neighborhoods, unparalleled access and abundant housing opportunities, it is an optimal place to locate a business and to raise a family.
